GUARD NEGRO LYNCHERS

He Gets Rich—She Marries Crooner

MILITIAMEN HURL TEAR GAS BOMBS

SOLDIERS SENT TO FIGHT MOB GIVEN REPULSE

Firemen Came to Rescue of Men Sent By

SALISBURY, Md., Nov. 22.—Troops sent by Governor Albert C. Ritchie to arrest mine suspects of the Princess Anne lynching today evacuated the armory here and started back for Baltimore after a mob of more than 1,000 persons stormed the building and were repulsed with tear-gas bombs and bayonets.

They took with them four men they arrested in early-morning forays into nearby Somerset county, where the lynching occurred October 18.

The troops had been ordered to Salisbury when state's attorney John B. Robins of Somerset county declined to arrest men said by eye witnesses to have been members of the mob that lynched George Armwood, a negro, accused of attacking an aged woman.

followed in short order, although five or those sought could not be found.

After the troops left, the crowd

APPOINT THREE

TO STUDY PLAN RELIEF WORKS

RELIEF WORKS

Aldermen Fry, Gibbs and East Are Named to

Committee

Aldermen J. W. Fry, C. L. Gibbs and Jas. East have been appointed by Mayor D. K. Knott as members of a committee of three which will study a proposed unemployment works program. These appoint-

menis were made at the regular meeting of city council, Monday evening, in conjunction with a successful motion moved by Ald. Fry.

Notices of motion were given by Ald. H. D. Ainlay and Rice Sheppard, while Ald. J. W. Findlay moved a motion dealing with the

policy of the awarding of city positions only to those who were out of employment.

ASK FOR FUNDS

Ald. Atilay said he would move a motion at the next meeting that city council ask the federal government to provide the city with funds on the city's non-interest

bearing treasury notes, such funds being used for launching a housing program. The Labor member of the board said there was a dearth of homes in the city, and that the

NEW PREMIER GRATIFIED AT POLL RESULT

Continued from Page 1

tired Anglican clergyman, winning over the CCF, the United Farmers, 400 votes over Rev. Clam Davis, non-partisan minister and independent.

The triumph of a newcomer to political life, Byron D. Sloan, former lacrosse player, in leading the poll in Victoria by more than 1,500 votes.

The election as an independent of Herbert Anson, mayor of Victoria in 1928, 1930 and 1931, when he retired from the mayoralty after defeat.

All six results were Conservative losses.

Liberal now has 34 seats in a legislature of 47, while the Co-operative Commonwealth Federation, required to accept the position of official opposition, have seven. The other members consist of two Independents, two Independent Non-Partisans, one Unionist, and one Labor.

WINNER ELECTED

Gordon Warner was elected mayor with Hon. Mr. Sloan in Vancouver Centre, the two polling 12,388 votes out of a total of 27,860.

Each voter had two votes. The CCF candidates, W. M. Lefebvre and J. S. Taylor, polled 10,291.

Two Conservative candidates, including 1,600 votes in the two polls, were D. H. Kent and A. Deo McPhillips. Six independent CCF, United Farmers and United Front members mustered only 1,461 votes for them.

MOTHER KILLS SON'S SLAYER

SAN ANTONIO, Tex. Nov. 28.—Miss Doolittle, 24, whom a grand jury refused to indict last Friday in the slaying of Albert James McCoy, was shot to death last night and Mrs. A. H. Bailey, mother of McCoy, surrendered to a sheriff.

It was just about midnight when for what he did to my son, since my son died, I have nothing to live for," said Mrs. Bailey. Doolittle was shot to death as she was apparently walking to her car, which had been parked near the corner of Main and Broadway streets. Mrs. Bailey was shot to death as she was walking to her car, which had been parked near the corner of Main and Broadway streets.

Brown Held For Death Of Wife

EL RENO, Okla., Nov. 28.—A man accused of the violent killing of his wife, Mrs. Virginia Brown, was held for trial without bail at the county jail here today.

The woman's body was found in a field for trial without bail at the county jail here today.

NO STATE AID MEDICINE SAYS X. B. BENNETT

Premier Cannot Conceal State of Mind for Developing It

OTTAWA, Nov. 28—"It will be a long time before the province of the Dominion is concerned," Prime Minister X. B. Bennett told the Royal Canadian College of Physicians and Surgeons at their annual banquet here last night. He could not conceive of a new system of state medicine for the province as a whole.

What the provinces might do within their own jurisdiction was a different matter, and difficult to ascertain, the premier added.

The prime minister, in a felicitous vein and with many amusing asides, traversed the history of medicine and recalled with pride the important contribution made by Canadians themselves.

"Long after you and I are forgotten, the name of Banting will live," he said.

Quoting the oath of Hippocrates, he said that the province of Quebec, of Francis Bacon, the prime minister found therein the principle upon which the profession of medicine was founded and on which it had developed for two thousand years.

CAVALRY SCHOOL MAKES PROGRESS

Gold On The Brain

By R. T. ELLIOT, K.C.

Gold on the brain produces mental irresponsibility just as definitely as water on the brain.

Mr. James M. Warburg, sometime one of the financial advisers of the United States administration, has resigned his position because his views on the sanctity of gold are not upheld in current policies of that administration. Outlining what he thinks should be done, Mr. Warburg broadcasts that:

"It is up to the latent majority to let the President know that the American people will remember what happened to 'suffering there may be in a slow orderly process of recovery'."

There was a national election in the United States in November, 1932. The learned Mr. Warburg must have been asleep or abroad on that day. The question then submitted to the "latent majority" was whether to go on suffering with Mr. Hoover in a slow orderly process of recovery—or to take a chance on eating with Mr. Roosevelt. Mr. Roosevelt, who is now President, is Mr. Hoover, the latent majority voted unanimously for something to eat. There is no more chance of stopping the something to eat. There is no more chance of stopping the Atlantic dry. On the north American continent, today the making of food available through work and wages is the only practical function of government. Until the "latent majority" in the United States staged their social revolution, the relation of food to politics was entirely disregarded.

In Canada it is still disregarded. Blinded by gold on the brain, our politicians publish statements about balance of trade, dumping duty, importance of paying public debts in terms of the contract, and other political medicine man propaganda. Conditions have been allowed to drift too far for any ordinary recovery forces to operate.

The immediate pressing necessity in Canada today is for a Democratic Government. We are supposed to have a representative government, responsible to the voters. Surely the voters should be consulted as to their decision on the question of a continuance of slow orderly suffering or the taking of action, even though experimental, to end suffering. We all know the answer.

IMPRESSED BY SOLIDARITY OF ANGLO-SAXONS

Arthur Bierwegman Addresses Young Men's Liberal Club

The solidarity of the Anglo-Saxon people throughout the world was the thing that impressed him most during a five-month study period at Toronto, Ontario, where Mr. Bierwegman, a student at the University of Alberta, is studying, in addressing the Young Men's Liberal Club at its club room, 1000-10th street, on Monday evening, Mr. Bierwegman recently returned from his tour.

Choosing as his subject, "Canada and World Peace," Mr. Bierwegman, who is a student at the University of Alberta, is studying, in addressing the Young Men's Liberal Club at its club room, 1000-10th street, on Monday evening, Mr. Bierwegman recently returned from his tour.

PREMIERE OF GUILD PLAYERS GREAT SUCCESS

Talented Organization at New Empire Receives An Ovation

Theatre goes turned out in hundreds on Monday evening to welcome to this city and the New Empire theatre, Ernest Willis' presentation of David Christie British Guild Players in Edwin Burke comedy, "This Thing Called Love". With practically every seat taken and with the auditorium artistically redecorated, the whole presentation scene that will live long in the memories of those present.

A HILARIOUS COMEDY

It would be difficult to conceive of a more successful introduction play than "This Thing Called Love". Unusually, both in quality, it had the audience in gales of laughter. From the onset to the final curtain there was not a dull moment or an instant in which action lagged. The high pitch was sustained throughout. The story is highly complicated, as are the plots of all plays and reviewed to its final analysis proves that true love survives the most critical assault even though the course does not run too smoothly. But around this simple theme, the author has constructed a highly diverting, side-splitting comedy with plot and counterplot that takes a high place among contemporary comedies. With a play so full of fun and good things, it might be expected that it would be an easy matter to put it over without effort. Not so. It is here that the Guild players gave irrefragable proof of their ability. It is easy to allow comedy to drift to the unconvincing. In this play every line, every situation, every shade of nuance so vital to the stressing of a subtle touch of humor was deftly handled with consummate artistry. Well-balanced and well-timed, the Guild Players presented a co-operative, fellowship of the highest order.

Heading the cast was Gail Fay as Ann Marvin. Seiden has there.

HOLLYWOOD GOSSIP

INTIMATE GLIMPSES AND INSIDE STUFF ON THE MOVIE COLONY

By DAN THOMAS

HOLLYWOOD, Nov. 28.—The inside story of the spectacular, roiling career of Arnold Rothstein, (son of New York's underworld boss), will be told in the film "The Fox" which will open next week at the Fox studio, early next week. The film is being produced by "The Fox" studio, early next week. The film is being produced by "The Fox" studio, early next week.

HAL'S BIG DAY COMING

A gala event marking Marie Dressler's birthday, is scheduled for Hal Roach's studio on Jan. 8. On that date Roach will celebrate his 20th anniversary as a comedy producer. All the screen celebrities who have served under the Roach banner will gather to drink a now legal toast to him.

LIKE REAL SHIP

A steamship, complete from stem to stern, is being built in the "anchorage" on one of the huge Roach stages. The vessel, a full-sized replica of a ship used for Arctic exploration, was built for some of the scenes in "Man of Two Worlds".

TRIPLE THREAT DEMON

No longer is it going to be Reginald Denry the actor. In the future Denry will be known as the "Man of Two Worlds".

TAKING A FRIEND'S PART

Edmund Lewis is preparing to portray one of his best friends.

SANTREY'S BIG REVUE WAKES INSTANT HIT

Return of Vaudeville To Strand Welcomed By Patrons

Marching in column down the aisle of the Strand theatre on Monday afternoon with military precision and invigorating rhythm, Henry Santrey and his "Soldiers of Fortune" heralded the return of vaudeville to this city after an absence of well over twenty years that one can remember.

It was a triumphant entry, both in conception and in results. For as the orchestral soldiers of fortune marched down the aisle, the "French Marching Song" from "The Desert Song" the audience, in an uncertain manner demonstrated conclusively that vaudeville had made a welcome return.

This was corroborated at the end of the presentation, when Mr. Santrey made a neat curtain speech. He told of the efforts to re-introduce this form of entertainment and reminded the audience that the Famous Players organization had many fine acts ready to send if they were wanted.

There were many fine acts in the act waiting to come out, and it was whether they were wanted and the house manager had been instructed to take as a measuring stick of opinion the applause in answer to the question, "Do you want more entertainment?" Mr. Santrey was relieved that the applause was sufficient indication of the desire for more entertainment.

BRILLIANT REVUE

Under the direction of Mr. Santrey there was unfolded to the delight of all present a brilliant, well-planned and well-executed, featuring medley of songs, dances and orchestral numbers interspersed with gag and jokes. It was a real Jack Horner pie, with almost everything in it.

Through the whole of Mr. Santrey's act, the audience was kept on its toes, and the presentation was a most successful one.

FAST MOVING ENTERTAINMENT

The March Siders, "dancers supreme" performed at least one

Industry To Be Guided By Leaders

WARREN SPRING, Ga., Nov. 28.—President Roosevelt signed the code placing the United States motion picture industry under the NRA last night with appointment of an authority to guide the business and ban "excessive" production during a 30-day period.

He named Marie Dressler, the old stage and screen star, as chairwoman of the code authority. He accepted the recommendation of General Hugh S. Johnson, in dual administrative, against federal censorship.

Without naming the limit of salaries, the president called for a full report within 30 days of "salaries or other emoluments" in the industry, both as to artists and as to executives.

Writers and dramatists were exempted from the salary limit. Johnson explained that the motion picture industry contains a provision penalizing building to "extravagant figures" a salary of motion picture actors within 30 days of the expiration of the contract.

Asked how the government would fix a limit and ban excessive salaries, Johnson replied: "I think public sentiment will have something to suggest on that."

Johnson said Eddie Cantor had suggested the idea to put actors on a royalty basis.

In the Tibetan, birthday festival of China, China, better festivals are held annually. Monk artists mold great butter images for the occasion, yak butter, highly colored, in the medium used, and all work must be done at low temperatures.

Must Smash Barrier Between East--West Farmer

NEW CO-OPERATIVE SYSTEM NEED OF CANADA

Canadian Wheat Growers Discuss Compulsory Marketing Problems—Pools Gave Agriculturalists Power.

TORONTO, Nov. 28.—Barriers between the eastern and western Canadian agriculturalists must be broken down, according to L. C. Brouillette, president of the Canadian Co-operative Wheat Growers Association.

A Regina resident, Mr. Brouillette made a special plea for agriculturalists to get down to business.

He declared in his address on "The Attitude of Prairie Farmers to Compulsory Marketing."

According to Mr. Brouillette, western farmers had been successful in co-operative ownership and operation of grain elevators. He maintained the Canadian wheat pools were less to blame for the "sagging" of the wheat market than the companies which had refused to sell their wheat when they had the opportunity.

The whole of Canada, he continued, had benefited by the wheat pools as these organizations had given greater buying power to farmers.

UNITES NATIONALLY
The London wheat agreement, according to an expert quoted to each what producing country, was far preferable to the "rugged, individualistic, unrestricted, competitive system" of the wheat organization.

Mr. Brouillette said the principle of co-operation could be applied as well to the national as to the international sphere.

"What we need in Canada is a Canadian plan, designed by and for Canadians and fitting in with the plans of other nations of the world," he said. "Canada must continue to provide leadership. We must get away from the hit and miss system—though you can hardly call it a system—in agriculture."

According to Mr. Brouillette, the people who continue to attack the London wheat agreement "have nothing else to offer—there is no alternative." The world is weary of the jungle law, the survival of the fittest.

SUPERAN SELF SUFFICIENCY
Dean Clement told how European countries were working toward agricultural self-sufficiency. Danish countries were entering into competition with Canada's wheat industry and Great Britain, through the British agricultural marketing act, attempting to protect agriculture.

In face of these movements, he emphasized Canada would have to become more self-sufficient.

H. M. Moore, of Vancouver, manager of the Fraser Valley Milk Producers Association, declared the price of milk dropped from 72 cents to 40 cents per pound in 1932.

When the courts ruled the British Columbia Dairy Products Sales Adjustment Act invalid, indirect taxation, Federal legislation, he declared was necessary if producers' difficulties were to be removed.

R. H. Milken, K.C., solicitor of the Canadian Wheat Pool, reviewed resolutions passed at the Regina Conference of Western Canada farm heads last year.

AMUSEMENTS

RIALTO
Edward Everett Horton, Leslie Henson and Albert Burton are the three leading stars in "The Baby Face," now playing at the Rialto theatre, and the picture is in abundance. It is one of the best comedies produced in Britain and it is saying a great deal. Horton plays the part of a bridgegroom who gets tangled up in a series of situations that keep the picture travelling at a fast comic clip. Horton and Henson, who provide Leslie Henson and Horton with the material for laughs, a pretty, Harry Langdon in "Honey and Jule," a clever cartoon and under of the popular organist "Punchy Blowers" rounds out an excellent bill.

EMPIRE
It's an entirely new and different Barbara Stanwyck who came to the Empire theatre last night in "Over in My Heart." Her latest starring vehicle for Warner Bros. Always she has appeared in the role of a woman more or less solid. In "Baby Face" she was a gold digging girl who had no scruples whatever about vamping and ruining men for the sake of money. In "Ladies They Talk About" she was a gangster and comedian in "The Great Dictator" and "Hillbilly" a fun girl and social dancer. Even in "The Purchase Price" she starts out as a cultured girl enamored of the bohemian proprietor. In "Over in My Heart" however, she is a changed woman, being a New England girl of strong character and moral fibre. To Miss Stanwyck's credit, her talent is such that she is able to exact the role with every more force and feeling than she has portrayed the woman of the under world. The picture is said to be a triumph of love beauty as well as a drama of fiery emotions and dynamic action. It is lined with the patois of an American girl, who loves and is married to a German professor at the time of the great conflict.

The cast is unusually strong

NEW OXIDE IS EXCLUSIVE TO U.S.L. BATTERY

Taylor & Pearson Distributors for This New Longer Life Battery

The U.S.L. Battery Company, Ltd. of Toronto, now announce a new lead oxide for positive plate structure in their new longer life batteries. These new batteries will be distributed in Northern Alberta by Taylor and Pearson, Ltd. of this city.

The new oxide is known as "Active" and it will be used exclusively in U.S.L. Batteries, and is given by exclusive patents.

The discovery is a result of four years' intensive research in the laboratories of the company, and is said to fill a need long wanted in the battery manufacturing industry.

U.S.L. chemists claim that "Active" possesses extremely desirable qualities which give to the U.S.L. battery greater capacity and longer life.

In the language of the material, it is the newly discovered lead oxide which will give to the U.S.L. battery more and quicker starts, particularly in winter weather, and as well, greatly aided life.

Active is made from the purest lead and obtained in a different form than the ordinary lead and physical structure from any other known lead oxide. Chemically, for instance, it is considerably more active and in physical structure.

Rubber-Tired Gas Train Goes Fast

It's propelled by gasoline, runs on 18 pneumatic tires and can make 75 miles an hour! These are the interesting features of the new two-car, air-conditioned railroad train, pictured at Philadelphia before taking the delivery trip to the Texas and Pacific Railroad.

The train, which will replace the present steam equipment on the first North-Western route, will be placed on exhibition at Chicago, Aurora, Ill., and St. Louis on the trip west.

DIET TO RELIEF MEALS

REGINA, Nov. 28.—Relief takers are nearly due to go on a diet. What they will eat and how much has been all worked out for them in Winnipeg Saturday, when representatives of Saskatchewan, Alberta and Manitoba assembled in the Manitoba capital to report on the diet which had been prepared by dietitians employed by the universities in each province.

The dietitians had originally met at the Saskatchewan University to prepare food schedules that would be satisfactory to the respective governments. The schedules have been fully drawn up and will in time be submitted in the various provinces concerned in the administration of relief, and they all are ready more fully.

Active and the U.S.L. battery will be made entirely of Canadian materials and by Canadian workmen.

LIBRARY FOR RURAL AREAS

SASKATOON, Nov. 28.—Meeting of a long list of country people to inaugurate the new library for literature with which to whet the appetite of the rural population. 5,000 books will be made available to rural areas of Saskatchewan by the Saskatchewan Public Library.

Convened by Angus Macdonald, local librarian, this volume distribution of 5,000 volumes may be only the start of widespread circulation of books in rural areas of the province.

Canadian Pacific and Canadian National Railway companies have agreed to carry second-hand books free of charge from eastern Canada to the west.

Inauguration of the scheme was furthered by the west by Mr. Macdonald and is followed by George H. Locke, chief librarian of the public library of Toronto. Mr. Locke intended himself in the plan after learning of the need for rural reading material in the west through a letter from Mr. Macdonald.

Philippines are the third largest export item of British Malaya.

VICTORIA AGAIN IN GRASP OF SEA SERPENT

Another Appearance of Marine Monster Now Recorded

VICTORIA, Nov. 28.—Another appearance of "Caddy," Vancouver Island's "sea serpent," was recorded today for the first time since they saw the monster in clear light.

The sea serpent, a creature of legend, was reported to have been seen on the coast of Victoria last night.

It was reported that the monster was seen in the Strait of Juan de Fuca, and the two men in the boat, who were on a fishing trip, saw the monster for some 200 feet and saw it swimming about 100 feet from the boat.

Shades and the boat must have been close to the water for there was a cut of waves some distance from the boat, they could plainly see the monster's head and tail and part was completely submerged.

It had the appearance of a great log floating through the water. There was something about it as the "Caddy" serpent.

U.S.L. BATTERIES

The Only Batteries Using The New Battery Oxide

"ACTIVE"

Bright Spots On The Ether

Active-Gives More and Quicker Starts
Active gives to the U.S.L. battery 11% more cold starting power than the standard, it is made from the purest lead obtainable and is vastly different from any other known lead oxide.

Active-Is a New Battery Oxide
Active is a newly discovered lead oxide — the product of the U.S.L. Battery, Limited, Toronto, Canada. It is manufactured in the Company's own plant and is protected by broad exclusive patents.

U.S.L. BATTERIES

Long Life-Dependable Power

Active-Is Exclusive in U.S.L. Batteries
Active is used exclusively in U.S.L. batteries. Its discovery is the result of four years of intensive and exacting research in the laboratories of the Company.

Active-Gives Longer Battery Life
Active possesses extremely desirable qualities that give to the U.S.L. battery longer life. The longer life feature is due to more solid construction which greatly reduces the normal loss of active material.

SKILL STILL METALS LEAD

Slim Centre Star Detroit Red Wings Tops Goal-Getters

Young Gordon Pettinger, Marc Barry in Second Place; Two Tied For Canadian Lead

MONTREAL, Nov. 28.—(Society) The National Hockey League still remains with Slim Centre Star Detroit Red Wings, in particular, and the United States division of the league in general.

Forrest leads the whole league with seven goals and two assists in eight games, better than an average of one point a game. Second place is shared by young Gordon Pettinger, New York Giant, and Detroit, and Ernie Barry, Boston Bruins center. Each has six points.

Best in the Canadian division, sharing fourth spot in the whole league with three others, are Hockey Smith, captain of Montreal Maroons, and Earl Rowe, upon whom Ottawa Senators were reported making wagers a short time back. They both have five points as have Aurie and Wieman of Detroit and Joe Lamb of Boston.

A feature of the scoring lists, second to be issued this season by Frank Clark, president of the league, is one of the names that appear far less often. Canadiens speedster, has one little assist to his credit. He is, of course, Maurice Shore has a zero against his name as have Trotter and Haynes of Montreal.

Frank "King" Klancy, Toronto's great defenceman leader, is presently parading with 20 minutes, followed by Albert Leach, Ottawa, and Lester Conner, Chicago, with 18 minutes each and Jean Pilon, Rangers and Harvey Jackson, Toronto, 17.

PRINCETON AND ARMY TURN EYE ON ROSE BOWL

Sole Remaining Undefeated of Untied Elevens

In East
NEW YORK, Nov. 28.—Princeton and Army close their regular Ivy League football campaign on Saturday with their eyes on Yale and Notre Dame respectively but their eyes are also turned to a possible bid to the Rose Bowl at Pasadena New Year's Day.

Sole remaining undefeated and untied elevens in the east, the Tigers and cadets both have indicated that any invitation to compete at Pasadena against Stanford would receive serious consideration. Both likewise indicated they would prefer to wait until after Boston's visit to Yale, which is a trip to the Pacific coast, assuming their offer is invited.

MAY NOT BE ELIGIBLE
"After Notre Dame gets through with us," said Major D. J. Werham, associate manager of athletic at West Point, "Stanford may not be eligible for an invitation."

As Russell, Princeton's graduate manager, pointed out that even should the Tigers get past Yale to finish with a perfect record for the first time since 1924, there would remain to be waived an agreement between Princeton and Harvard to play in any sport. This rule was adopted by the two universities in 1924.

Teams Narrowed Down To Five
STANFORD UNIVERSITY, Calif. (Society)—Stanford's board of athletic control today has narrowed to five the list of eastern United States football teams which may be invited to oppose Stanford in the Tournament of Roses international contest at Pasadena New Year's Day.

Army, Navy, Princeton, Michigan and Duke were selected as possible opponents of the Rose Bowl bid. Alfred K. Masters, chairman of the board, said there will be no further action on the question pending the outcome of games to be played this week-end.

BABE DIDRIKSON MAKES \$13,000
KANSAS CITY, Nov. 28.—Mildred "Babe" Didrikson, the Texas all-around girl athlete, captured a desire here today to meet her severest golf critic, Helen Hicks, in a match, and also disclosed she has a professional \$13,000 as a touring professional.

Revealing Miss Hicks' opinion that Didrikson never would make a good golfer, the "Babe" asserted she said she would like to find out for herself whether I ever could.

Asked if she was glad she had turned professional, Miss Didrikson replied: "To be paid \$13,000, I stopped here on her way to Muncie, Ind., to join a basketball team."

P. G. A. MEET AT BUFFALO
CHICAGO, Nov. 28.—The 1954 championship tournament of the Professional Golfers' Association will be held next July in Buffalo, it was decided in the closing minutes of the annual convention of the P. G. A., which closed here today.

December is the harvest month of such winter sports as skiing, ice hockey and ice skating in the United States and in Canada.

C.N.R. RAILWAY
The Canadian National Railway (C.N.R.) has announced that it will be operating a special train from Montreal to Toronto on December 1, 1954.

Takes Tackle

MONTREAL, Nov. 28.—Football fans have seen little Gordie Perry, the rallying spirit of Canadian gridiron, in action for the first time. The former Montreal football club captain and running half-back star announced his retirement from the sport after the game here Saturday when Toronto Argonauts defeated Montreal out of Dominion playdown picture with a 15-5 defeat. A few weeks under a hard tackle by cap. He will be married in a few days and has decided to leave football alone.

Black Ross Will Fight Petrol
CHICAGO, Nov. 28.—Barney Ross, lightweight champion of the world, left today for New York where he will meet Billy Petrol, former N.Y. veteran, in a 10-round bout scheduled for December 6. Ross will be at 142 pounds.

FIELD IS CUT TO FOURTEEN SIX DAY RACE

Two American Teams In Lead By Margin Of Single Lap
NEW YORK, Nov. 28.—Two American combinations, Tony Rebell and Dave Landon, and Jimmy Walcott and George Dempsey, were leading the field in Madison Square Gardens' fifth international six-day bike race at one a.m. today.

The leaders had covered 314 miles, nine laps to hold an advantage of one lap over four other teams. The field was reduced to 15 teams through the elimination of Roger Pratt and Rene Bouchard of France who had fallen more than a mile behind the leaders.

Torothy DePuy of Victoria, B.C., and Alf Lehoucq of France rolled along in the second place but they were leading the field in sprint points on 146.

BLUE EAGLE NOT PRACTICAL IN MAJOR LEAGUE BASEBALL

Game Is Not An Industry States President Of National Loop
NEW YORK, Nov. 28.—Baseball men have no objection to trying the blue eagle, if it can serve any useful purpose, but one of the principal objections of President John A. Heydler of the National League, declared Monday he could see no practical way of applying an NRA code to the game.

He was answering calls in the scores of the "NRA" and Heydler, "I am puzzled to know how any industrial code is going to be applied in a practical way to sport. I differ with them who call the game a business or an industry. I believe their attention to the decision of the District of Columbia Court of Appeals, as confirmed by the Supreme Court of the United States. This decision specifically established that baseball is a sport—not a trade or commerce."

STORM TROOPS, STUDENTS GIVE POLICE BATTLE

Swords, Rifle Butts Freely Used — One Killed, Many Injured

Edmonton, Nov. 28.—One student was killed and several were injured last night when a storm of police and students broke out in the streets of the city. The police, who were on duty to maintain order during the anti-Semite demonstration, were met by a group of students who were armed with swords, rifle butts and other weapons. The police fired their rifles and the students threw stones and other missiles. The result was a battle in which one student was killed and many others were injured.

Police planned to make out the students with tear gas but were unable to do so because of the darkness. The students, who were led by a man named "Red" Williams, were armed with swords, rifle butts and other weapons. The police, who were on duty to maintain order during the anti-Semite demonstration, were met by a group of students who were armed with swords, rifle butts and other weapons. The police fired their rifles and the students threw stones and other missiles. The result was a battle in which one student was killed and many others were injured.

A similar clash at Exhilarated, near Tulsa, resulted in killed several and authorities threatened to close the universities for the remainder of the semester.

BIG DROP IN 1933 ALBERTA WHEAT YIELD

Largest Estimates Place Production 95,100,000 Bushels

Latest estimates place the 1933 Alberta wheat yield at 95,100,000 bushels, according to a survey issued on Tuesday by the provincial agricultural department. This is a large decrease over the 1932 total, which was 154,000,000 bushels. The decrease is due to a combination of factors, including a late start to the growing season and a severe drought in the spring.

In 1932 the average yield per acre was 20 bushels to the acre, as against 12 bushels in 1933. In 1932 the average yield per acre was 20 bushels to the acre, as against 12 bushels in 1933. In 1932 the average yield per acre was 20 bushels to the acre, as against 12 bushels in 1933.

The survey continues by stating that considerable improvement has been found in livestock prices and that it is now possible to believe that the improved condition of the province, with even better prices prevailing next spring. Cattle prices appear to be on the upgrade. Shipments of beef cattle to the Old Country market have been heavy. Exports of this date, nearly 8,000 head for the week. Two shipments of cattle were made within the last six weeks, one of 24 head from the north and one of 24 head from the south.

The first shipment of cattle to Canada was made recently from Winnipeg.

WINTER WEATHER HITS EDMONTON

Winter has once more cracked down on Edmonton and northern territories. Light, powdery snow fell in a small flurry from 11 a.m. to noon at 9:30 a.m. today and the freezing time early Monday.

Heating down heavily in the Peace River area, sub-zero temperatures were recorded in all sections this morning with River valley temperatures at 24 below zero. Other low temperatures were Notikung 21 below, Peace 20 below, and Fort McMurray 17 below.

Monday's highest temperature was 25 below, today's low being 16 below, from midnight to 2 a.m. and rising to 21 at 9 a.m. was recorded.

EXPECT FLYING TO START SOON

With the weather reported at Fort McMurray on Tuesday, prospects of an early start for winter aviation increased and planes may now be travelling to northern areas.

For close on six weeks now aerial navigation in the north country has been at a standstill. Planes were first prevented from flying by bad weather and ice, but a sudden thaw set in and made it impossible for planes to operate with ice on their wings.

As planes are now reported in a critical condition at Fort McMurray, it is expected that the construction of a road from the river to the town will be completed by the end of the month.

Received as information a report from the City Engineer, H. H. Hadow, that the construction of a road from the river to the town will be completed by the end of the month.

Requested that organization known as the Loyal Protestant Women of

Most Striking Of Utah's Beauties

Here is Irene Hutchins, of Ogden, who has been adjudged the most striking beauty in the State of Utah in a recent contest. She is a delectable brunette with light blue eyes and dark eyebrows.

Police planned to make out the students with tear gas but were unable to do so because of the darkness. The students, who were led by a man named "Red" Williams, were armed with swords, rifle butts and other weapons. Group Settlement Scheme Important To Labor, Business

Brigadier General Henry of Lethbridge who will present a plan of group settlements to the Edmonton Chamber of Commerce and the Edmonton Trades and Labor Council this week points out that the scheme, which involves amounts of \$100,000 for each settlement, is of great importance at this time to both labor and business. In each settlement he says, approximately \$250,000 would be spent in land and the other \$750,000 would be spent in labor and materials.

DUCK DISEASE EXPLAINED BY DR. W. ROVAN

'Botulism' Has Taken Toll Of 20 Million Birds In 15 Years

A detailed explanation of 'botulism' the bacteria-produced duck disease that has carried off twenty million ducks in the last fifteen years, was given on Monday night to the members of the Edmonton Fish and Game Protective Association by Dr. W. Rovon, of the University of Alberta. Dr. Rovon, in company with other members of the biological staff, has been engaged recently at the instance of the department of agriculture in diagnosing the dread 'duck disease'.

At St. Louis, La., Dr. Rovon is a game bird disease that is produced by bacteria which require shallow alkaline water, kept at a good warmth and containing decaying animal and vegetable matter, before they can kill. The bacteria comes in shallow lakes or on mud flats without any other deadly warmth from the sun. In every instance noted so far, it had developed on lakes fed by irrigation.

The bacteria develops spores containing poisons. In acute cases the ducks die in four hours. In other cases they may live for days, suffering a creeping paralysis which affects their wings and legs and neck, so that they cannot fly or walk or hold up their heads. Many drown through inability to hold their heads out of water.

ANTI-TOXIN FOUND

An anti-toxin has been found which is used on chicken ducks at the laboratory, but removal of the smitten ducks to clean water will enable them to recover naturally. One of the first steps in the treatment of the shallow water, when it cannot get warm enough to breed the bacteria.
